

**Figure 1**

Figure 1 consists of two panels, (a) and (b), showing histograms of the number of non-zero elements in the rows of matrices A and B, respectively.

(a)

The x-axis is labeled "Number of non-zero elements in row" and ranges from 0 to 100. The y-axis is labeled "Frequency" and ranges from 0 to 10. The distribution is roughly bell-shaped, centered around 60-70 non-zero elements per row.

(b)

The x-axis is labeled "Number of non-zero elements in row" and ranges from 0 to 100. The y-axis is labeled "Frequency" and ranges from 0 to 10. The distribution is roughly bell-shaped, centered around 60-70 non-zero elements per row.
